Experience

Lipak Company / Front-End Developer

February 2024 - PRESENT, Tehran, Iran.

Main Responsibilities:

- Developed and responsive web applications using HTML, CSS, JavaScript, Vue.js, Nuxt.js.
- Worked with RESTful APIs to retrieve and display dynamic data on the front-end.

Main Achievements:

- Use Typescript in the new project to migrate vue project to nuxt3.
- Use Vue state management (vuex and pinia) for handling backend API to efficiently fetch and manage data, resulting in faster load times and improved overall performance.

Tehran Raymand Company / Front-End Developer

February 2022 - February 2024, Tehran, Iran.

Main Responsibilities:

- Developed and maintained responsive and user-friendly web applications using HTML, CSS, JavaScript, Vue.js.
- Worked with RESTful APIs to retrieve and display dynamic data on the front-end.
- Participated in code reviews, providing constructive feedback to ensure code quality and maintainability.
- Actively contributed to the improvement of development processes and workflows, including the adoption of new tools and technologies.

Main Achievements:

- Developed complex forms with advanced validation using Vue Hook form, ensuring data accuracy.
- Use Vue state management (vuex and pinia) for handling backend API to efficiently fetch and manage data, resulting in faster load times and improved overall performance.

Taban shahr Company / Front-End Developer

September 2021 - February 2022, Tehran, Iran

Main Responsibilities:

- Implemented responsive and accessible UI components, ensuring a seamless user experience across different devices and screen sizes.
- Collaborated closely with UX/UI designers to iterate on the application's design and user interface.
- Developed web applications using HTML, CSS, JavaScript, React.js

Main Achievements:

- Use Redux for handling backend API to efficiently fetch and manage data.

Projects

Migration from Vue 2 to Nuxt 3 – *Vue.js, Nuxt 3, Pinia, REST API*

- Collaborated with the front-end team to migrate a large-scale production website from Vue 2 to Nuxt 3, improving performance, SEO, and maintainability.
- Upgraded state management using Pinia, and optimized API calls for faster load times.

lipak.com

Personal Portfolio Website – *Nuxt 3, Vuetify, Composition API*

- Designed and developed a personal portfolio website to showcase projects and skills.
- Built a responsive UI using Vuetify and implemented features with Nuxt 3's Composition API.
